[CRANE BASKETS](#)

Features:

Crane baskets, also referred to as suspended personnel platforms, crane cages and construction baskets, are designed, manufactured and tested to meet all Federal and OSHA regulations. These heavy-duty designed baskets are designed to

Meet the demands of the construction and mining industry. All crane baskets include standard features such as 42"H Meshes sides, self-closing swing-in front door with latch, re-enforced mesh roof, and 4 hook points on top to attach to overhead lifting device. Full perimeter safety harness hook-up allows personnel to be attached almost anywhere inside the basket. Standard fork loops makes ground movement of basket a breeze. Crane baskets must be tested each and every time they are used. Test weight must be rated for 1.5 times the weight of the basket. Our test weights come standard with cabling to secure weight to basket. Special size crane baskets available upon request.
