STRIP DOORS Vinyl strip doors offer an economical solution

To control noise, dust, climate and debris.

This strip door plastic comes in widths from 6" wide to 48" wide. Overlapping strips will create a tight barrier, based on your needs.

Standard strip door plastic is suited for most

Light duty applications where the main concern

Is to allow traffic entry while controlling concerns.

Most common material widths used are 6", 8" and

12" with 33% to 50% overlap.

Ribbed material features ¼" ribs spaced 2" apart. Designed for Industrial use, this ribbed vinyl strip material will withstand constant Impact over time.

USDA low temp material is nylon re-enforced to assure strips hang straight. Suitable for food, drug, clean room

Ανδ φρεεζερ αππλιχατιον, τηισ ματεριαλ ισ ρεχομμενδεδ φορ τεμπερατυρες τηατ ρανγε φρομ -40°Φ το 140° Φ.

We also offer **Weld screen** material that protects against

The effects of UV radiation emitted during the welding process. This material is available in wider widths up to 74.5" wide.
