[▶ SELF DUMPING HOPPERS, POLY](#)

POLY SELF-DUMPING HOPPERS Poly self-dumping hoppers are very useful in In-plant

Clean up applications where materials are light, soft and do not contain sharp edges. Rugged steel base allows unit to be moved around by means of a forklift truck.

Operator can dump hopper without getting off forklift.

Once load has been dumped, simply tilt mast back towards operator and hopper returns and latches to its steel base.

Unlike steel hoppers, these poly self-dumping hoppers

Can be cleaned and washed out, to remove odor, residue and stains. They will not rust or corrode, either.

Poly self-dumping hoppers range from 5/8 cu yd. to 2 cu yd. capacity. Optional casters allow carts to be moved without use of a forklift.

1.1 CU.YD. Poly Self Dumping Hopper
\$1 955.00
